Wairau: 03 578 5750

Having difficulties getting Tamariki (*children*)/
Rangatahi (*teens*) in for their FREE dental
therapist appointments?

FOR TAMARIKI/(CHILDREN):

Because we know how hard it can be to organise mahi (work), school, whānau (family) and kids, we'd be happy to tautoko (help) with making appointments/transport/walking bus to attend these appointments. Teeth are important for our overall health, and the more they get their teeth checked by the dental therapist, the sooner we can fix any little problems they may have.

Give us a call at Te Piki Oranga on **0800 672 642** if we can help or you can call/text our Oral Health Promoter on **027 2468775** if you'd like to learn more about dental care.

FOR RANGATAHI/(TEENS):

No matter where you're at ... home, school, work, training course, or unemployed you can receive **FREE** dental care every year and give yourself something to smile about until your 18th birthday.

What to do?

1. To find the dentists providing free care in your area, call **0800 TALK TEETH** (0800 825 583).
2. Phone or visit your chosen dentist to make an appointment for a check-up.
3. Turn up for your appointment. Let the receptionist know you are there and who you are. You'll need to fill out an enrolment form when you get there.

*“He niho hauora,
He tinana hauora”*

*“Healthy teeth,
Healthy body”*
